## March Brings Out Unsightly Spots. How to Remove Easily.

The woman with tender skin dreads March because it is likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a tendency to make her freckles. Fortunately for her peace of mind the prescription, othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength othine should move them.

Get an ounce from your druggist and banish the freckles. Money back if it fails.
